8. LLM 建议

Improve the site's structure by organizing headings more logically and reducing the number of H3 tags to enhance readability and SEO.

Enhance authority by acquiring backlinks from reputable sources and possibly adding testimonials or case studies from recognized businesses or universities.

Increase the text ratio by adding more informative content to the page, as the current text ratio is very low at 1.76%.

Implement structured data (schema markup) to help search engines better understand the content and improve visibility in search results.

Ensure all social tags and meta descriptions are optimized for engagement and accurately reflect the page content to improve click-through rates.
