## 8. LLM 建议

Improve technical SEO by addressing issues like missing structured data types and low text ratio (1.76%).

Enhance content quality by increasing word count (currently 864) and ensuring headings (H1, H2, H3) are optimally used for better structure.

Build authority through backlinks and social proof to improve the authority score (currently 0).

Optimize meta tags and descriptions to ensure they are unique and compelling for better click-through rates.

Ensure all images have alt text (currently good with 0 missing) and maintain this practice for accessibility and SEO benefits.
